# Charge and Sync USB Cable

Lightning™ Connector for iPad/iPhone/iPod

Highlights

- MFi Certified
- Apple Authorization Chipset
- Durable design
- High quality tinned copper wires
- Convenient length
- Stay fully charged

Features

MFi Certified

MFi is an Apple authorized logo licensing for accessories manufacturers of its external parts, aptly named "Made for iOS". The testing process is extremely strict, with the pass rate at only 2%. The TP-LINK Charge and Sync Cable has successfully passed the testing process to ensure 100% compatibility with any lightning connector supported devices.
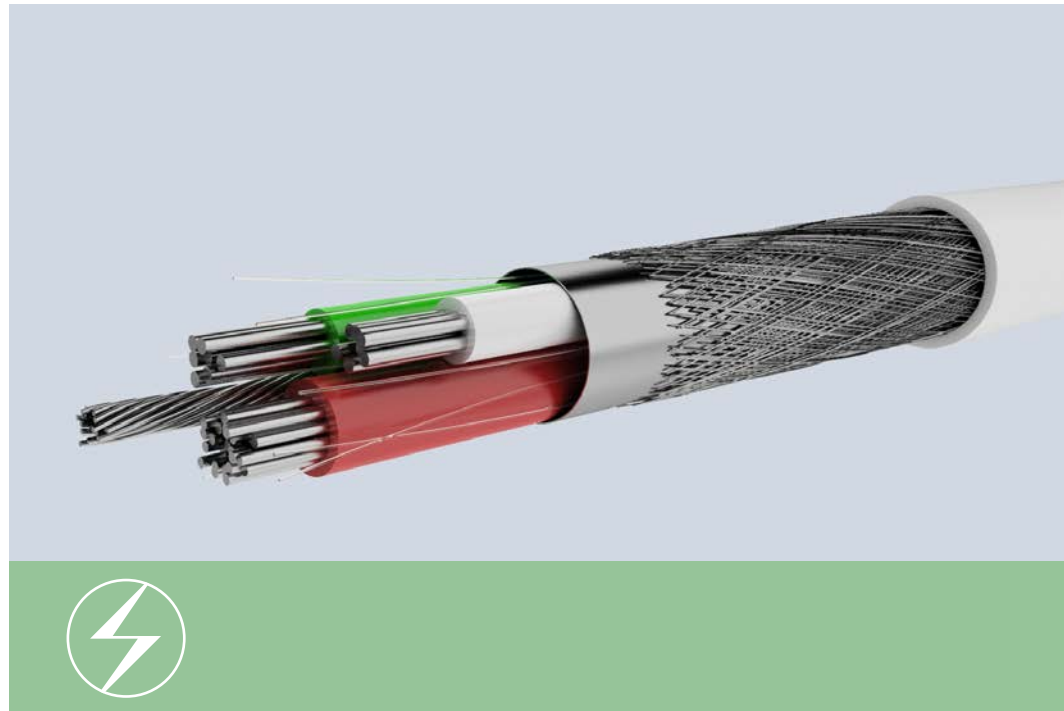

Apple Authorization Chipset

The TP-LINK Charge and Sync Cable is complete with the Apple Authorization Chipset to prevent damage from reverse current and over voltage.
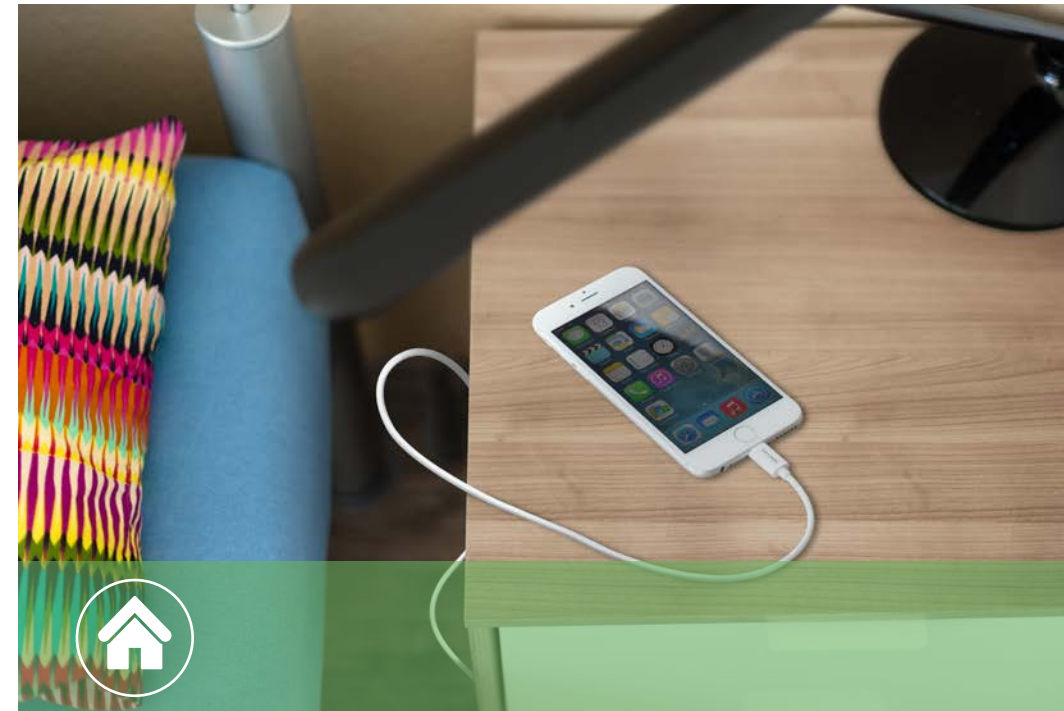

Durable design

The TP-LINK Charge and Sync Cable is PVC braided with ABS shell that has been bend-tested 7000+ times and plug-tested 10000+ times, providing more durability than cables without the Apple MFi certification.

Features

High quality tinned copper wires

Comprising 68 high quality tinned copper wires, which feature little electrical resistance, minimal voltage drop, and anti-oxidation as well as anti-corrosion properties, the TP-LINK Charge and Sync Cable provides stable electrical power and data transmission.

Convenient length

The 3-foot-long cord lets you connect your devices and still use them without feeling tied to the wall.

Stay fully charged

Charge all your devices in no time from any USB port to stay connected wherever you go.

Specifications

Hardware

Dimensions: 3.2 x 2.8 x 0.8 in (81.28 x 71.12 x 20.32 mm)
