DATASHEET / BROCHURE

Epson's first monochrome integrated ink tank system printer, with Wi-Fi connectivity, for ultra-low-cost office printing

The Epson WorkForce M105 is a single-function monochrome integrated ink tank system printer with Wi-Fi connectivity. This continuous ink system is ideal for home office and small office users, who are looking to cut their printing costs, and comes with two Epson genuine ink bottles – one starter bottle and one standard 140ml bottle. Standard ink bottles offer a page yield of 6,000 pages¹.

Epson's fast-drying genuine pigment ink ensures business documents are water, smudge and fade resistant, while Micro Piezo technology offers Epson-quality document printing. In addition, a 12-month (or 50,000-page) warranty, and additional service support, provide peace of mind and help if you need it.

The purpose-built ink tank system is fully integrated into the printer, so you can enjoy reliable printing without the mess or hassle often associated with non-genuine refills and third-party ink tank systems. The Epson genuine ink bottles make it easy to refill the ink tank with their clear labelling and drip-free nozzle.

The Epson WorkForce M105 is network-ready for sharing across small workgroups, but can also be used on individual user desktops thanks to its compact size. Fast print speeds of up to 15ppm² also help boost office productivity, so you don't have to wait around for prints. In addition, you can produce a variety of additional materials, such as headed paper, business cards and envelopes.

The Epson WorkForce M105 has a small footprint that easily complements any work environment it is in. And thanks to its quick start-up and low energy usage, this ENERGY STAR-qualified printer is ideal for any energy-efficient office.
